Grant Application Reflection Questions:

1. Has something changed with your program or the neighbors you are serving that has prompted this request need? If so, what?
2. If we are able to provide food credit to your account, will you do anything different or in addition to your existing programming model? For example, extend distribution hours, offer the opportunity for people to come to the pantry more frequently, expand your programming to provide more choice to those seeking your services.
3. If FMP is able to provide food credit to your program, what will be done differently to ensure the future of your current programming model?

4. Have you applied for any local grants, reached out to local businesses/churches for financial support? If so, what has the result been?

5. Do you collaborate with other local resources? If yes, in what way(s)?
