

## AN UPDATE FOR PARTNERS OF FEED MY PEOPLE

We celebrate YOU, our Partners! Over 90% of you got your February statistics in on time! That is AMAZING! Thank you for remembering that your monthly statistics are **due by 8am** on the **5th of the following month**. We then combine all partner statistics and send them on to Second Harvest Heartland by the 10th to tell our collective story of the Feed My People service area. When you are on time, we are on time. These statistics are required by Feeding America, but also serve to tell the story of our agencies and programs, and what incredible stories you are telling! Thank you for all you do to build stronger, healthier communities!

### Be In The Know

#### UPDATE: Canned Pears

You've read about our FREE canned pears and many of you have been ordering them! The product number is DN701425. The pears come in shiner cans with labels put in the box for you to tape on. Our Feed My People volunteers were putting them

on the cans, but they were falling off by the time they got to you. We are sorry for the inconvenience of this extra step on your end, but it is very important that labels are present on each can.

Also note, the 16 cans of pears are repacked into BEAN boxes. These boxes are donated to us and still have bean can labels on one side. Please don't be confused by this! There are pears inside! Please check your boxes before filling out a Discrepancy Form.

---

## Email Request

Please include your *Agency Name* or *Agency Reference Number* in any email you send to us. We have several new team members who are anxious to know all of you by name, but just aren't quite there yet. Including your name or number helps us to be able to help you in a more timely, efficient way. Thanks!

## Partner Highlight

Chippewa Valley Street Ministry

Chippewa Valley Street Ministry continues to serve a growing population, with significant increases from a year ago.

Homeless advocates recently visited one evening to not only observe this incredible ministry, but also to engage in conversation with the people being served to better understand their challenges in the Chippewa Valley. Our local hospital closure and access to medical and mental health treatment topped the list.

## Quick Reminders

### Statistics:

- If you do not distribute on any given month, please submit zeros for that month. It would also be helpful if you put a *comment* (such as "no service") after the last line as to your reasoning for the zeros for that month to clarify. Putting a comment in helps us know the zeros are not an error. When we are unsure, we may follow up with you to confirm.
- Remember to hit ENTER each time you enter a value on each line so it saves it there.
- Plan to fill in your stats in one sitting. The **green** SAVE button at the top is also the SUBMIT button and once you click SAVE you will not be able to enter anymore values without reaching out to us to reset your permission to do so.
